HERE'S the POINT

By SPENCE HELD

Back in 1769 San Diego became the birthplace of California.

No, I wasn't there with a pencil in my hot little fist, although sometimes it seems that I must have been lurking behind the tules in the river bottom. What confuses me, I guess, is the vivid memory of a dramatic production a few years later.

Any so-called writer likes to quote himself better than anybody else, so here's the way I started off my story in 1929:

Presidio Hill, San Diego's Plymouth Rock of the Pacific, first trod by white man 160 years ago when Franciscan friar and Spanish soldier claimed it for church and king, yesterday came into its own on the anniversary of that historic 16th of July, 1769.

Yeah, and I devoted some flowery adjectives to the pageant and ceremonies marking formal dedication of Junipero Serra Museum and Presidio Hill Park, gifts of the late George W. Marston to the S. D. Historical Society and citizens of the city.

* * *

Ten thousand attended the exercises. It was a hot day and the women wore light summer dresses; the men sweat like hawgs but were too dignified to take off their coats.

Except me—I definitely shed mine and felt sorry for the poor henpecked fellas absorbing cultcha by the hour.

Well, the speakers included El Senor Don Alejandro Padilla y Bell, ambassador to the U. S. from Spain, and Gov. C. C. Young of California.

El Senor Don etc., who looked something like Groucho Marx, read a long speech which I tried to take down, word for word, before realizing it would be easier to get a copy from him.

Marston, the merchant-philanthropist, also spoke. Pointing up the valley to the Old Mission, he said: "That structure, with its olive grove, the first planted in California; a Mission Bay aquatic park, and other areas in this vicinity all should be combined into a harmonious whole in memory of our pioneers."

* * *

The historical pageant had five scenes illustrating events occurring between April and July, 1769.

For the first scene, the natural stage was set with tule wickiups, forming a village of the Diegueno Indians. A hunting party returned in triumph with a deer and several jackrabbits . . . Came the Spaniards, and hardships, and finally, on July 16, Father Serra gathered his faithful band and ascended Presidio Hill.

Mass was chanted under the open sky. A rude cross was erected, and the Franciscan consecrated the ground for the first mission. A bell pealed forth the message that civilization had come to Alta California.

(Later, the mission was moved up the valley to the site now occupied by the restored structure.)

The San Diego Zoo is starting an African safari to bring back such specimens as "owl-faced monkeys, aardvarks, bat-eared foxes, shoe-billed storks and reticulated giraffes."

Aardvark! There's a crossword puzzle word suddenly coming to life, huh? The dictionary says it's "an African mammal with a long, protrusile, slimy tongue, which enables it to catch ants, upon which it principally feeds."

Why don't they call it an African ant-eater and be done with it?

And what in heck is a reticulated giraffe?

I'll see you in the monkey cage, Joe.

Sports Car Races Set For Weekend

San Diego will become the Sports Car Racing Capital of the West this weekend (July 21-22) when nearly 200 top drivers gather for the first running of the Fiesta del Pacifico Road Races at Montgomery Air Field.

Torrey Pines long was one of the favorite sports car haunts in the West. It's now being converted from sports car oval to golf course, but officials feel the new two-mile strip at Montgomery Field wil be an excellent substitute.

Sponsoring San Diego Junior Chamber of Commerce and California Sports Car Club officials have programmed 15 races for the two-day festival. Eight events are carded on Saturday and seven on Sunday, starting at Noon.

The races are one of the major events of the month-long Fiesta del Pacifico celebration in metropolitan San Diego.

The entry list includes a good-sized share of the leading drivers in the West. Bill Murphy, popular Culver City automobile dealer, will be after his third straight main event win in his speedy Fuel-Injection Kurtis-Buick.

Spanish Fiesta Fever Hits Peninsula Area

Bearded businessmen and women in gay plumage were much in evidence in the Peninsula area yesterday as San Diego's color-splashed Fiesta del Pacifico opened for a month's run.

Newport and other streets in the Ocean Beach business district were avenues of flags, flung to the breeze by the O. B. Chamber of Commerce.

Meanwhile, preparations were proceeding for the annual Daz-O-Fun in Ocean Beach Aug. 17, 18 and 19, which will be one of the concluding events of the Fiesta del Pacifico. Eight girls already have entered the bathing beauty contest, acording to Mrs. Bettie Knauer, chairman. (AC-2-9660.)

Awards will be made for the best community participation, for the best male Fiesta costume, and the best female Fiesta costume.

A board of judges will tour the competing areas on Monday, Aug. 6, starting at 9 a.m. Judging will be based on the number of people in Fiesta costume, and originality of Fiesta wear.

Minimum Weight Going Up In Yellowtail Derby

With the second of three qualifying periods to close Saturday night, contestants in the $25,000 San Diego Yellowtail Derby literally made the scales fly this week in last ditch efforts to bag qualifying fish and it now appears that at least a 24 pounder will be required to win a place on the firing line in the period fishoff by the top 150 anglers July 27.

Heaviest albacore of the week, and of the season up to that point, was a 29 pound 4 ouncer caught by G. W. Hawes, Los Angeles, but it was closely pressed by four albacore and two bluefin tuna, all 27 pounds or heavier.

Albacore dominated the derby picture during the week, with the high day producing a catch of 1293 longfins and many of them of qualifying weight. As a result of such action, minimum weight in the derby period rose to 23-12 with one week remaining.

Among the certain qualifiers was Georgia Drummond, 3344 Trumbull St., who checked in a 25 pound 4 ouncer. Ira Koidan, 4462 Saratoga, with his 34 pound 1 ounce yellowtail, and J. V. Anderson, 4344 Santa Cruz, with his 24-10 also are certain to make the firing line on fishoff day, but three other anglers from the area were washed out by heavier weigh-ins this week. They were Wes Sebring, David Labruzzi and Eddie Gann.

There is no closed season on striped bass fishing in California, according to the National Automobile Club.

Children To Play Prominent Role In Fiesta Del Pacifico Next Week

San Diego children and members of the Junior Civic Ballet will play a prominent role in Fiesta del Pacifico next week in a series of events planned by Fiesta officials in cooperation with the San Diego Park and Recreation Department.

On July 23 and 25 a Children's Cavalcade will be held at 8 p.m. at the Balboa Park Organ Pavilion under the direction of Miss Maria Fielding, of the Department. Dance units from city playgrounds, folk dance classes, Boy and Girl Scout organizations, and various other youth groups will be presented in a varied program of dances.

The Children's Cavalcade on the 25th will be preceded by a Fiesta Youth Costume Parade originating at the Federal Building in the Park at 7:30 and finishing on the Organ Pavilion stage.

Youngsters will compete for the best Spanish costume, Early American, Indian and Gold Rush Day costumes in divisions for 5 years and under; 6-11 years and 12 years and over. Three prizes will be awarded by the Fiesta del Pacifico in each of the age classifications with separate divisions for boys and girls.

Contestants are to report to the Federal Building by 6:30 p.m. and must have with them a signed entry blank. Entry blanks are available now at all city playgrounds and at the Park and Recreation Department offices.

The Junior Civic Ballet, under direction of Miss Fielding, will present "The Birthday of the Enfanta" on July 30 and August 1 at the Organ Pavilion. The story in ballet form will involve some 100 children.

Admission will be free to all of these events.

Outboard Races At Coronado Sun.

The first annual Coronado Outboard Races, sponsored by Coronado Fiesta Committee, will be held at Glorietta Bay Sunday, July 22.

Deadline for filing entry applications is midnight Saturday, July 21. Send entries to Chamber of Commerce, P. O. Box 396, Coronado. (Entry blanks may be obtained from boat dealers.)

Time trials will be held from 10 a.m. to noon Sunday. All boats must run time trials to be eligible for merchandise prizes. There will be trophy awards for 10 classes.

The races are to start at 1 p.m. The program includes heat races, trophy race, caboose race, comedy race, and a 30-mile marathon.

Swimming & Diving Championships Will Open Big Weekend Of Sports

Fiesta del Pacifico Swimming and Diving Championships at Mission Beach Plunge July 20 and 21 at 8 p.m. will open a banner weekend of sports planned around San Diego's Countywide Fiesta celebration.

The second day of the swimfest will also see the opening of an eight-day Fiesta golf tournament on all courses from Oceanside to Agua Caliente. Yachtsmen from as far north as Portland will participate in a Regatta de Botas Pequenas in Mission Bay starting Saturday and continuing Sunday.

Sunday will also mark the Fiesta del Pacifico Inboard Motorboat Racing Regatta to be held in the Marine Stadium of Mission Bay for leading West Coast racers. And, in the midst of the golf, sailing and motorboat racing competitions, the Fiesta del Pacifico Rough Water Swim wil be held from Old Mission to New Mission Beach at 2 p.m.

The swim meet is expected to be the biggest here in nearly 10 years with many Olympic Games team members on the potential entry list. A feature will be competition in both men's and women's diving from the three-meter board.

Some 15 classes of boats are expected for the yacht regatta to be held opposite the Mission Bay Yacht Club starting at 1 p.m. Saturday and 10 a.m. & 1 p.m. Sun., for some 200 entries. Classes of boats will range from sabots to star. Visiting yachtsmen will be honored at a Fiesta Mexican Fair at the Mission Bay Yacht Club Saturday night.

Sunday's inboard motorboat races will produce speeds in excess of 100 miles an hour by some of the larger boats. Among San Diego pilots competing will be Bob Higgins, Walt Kalben, Rod Maurer, Lloyd De Lozier, Jack and Marie Lewis, Fred Jackson, Roger Ring, Ted Tyce, Bob Jackson and John Toprahanian.

The rough water swim has attracted such names as Phil Darr, San Diego; Charles De Forrest, Long Beach; Reuben Mercado, Calexico; Jack McNees, Whittier; Buddy Belshe, Huntington Beach; and is expected to lure three-time La Jolla Rough Water Swim titlist, David Radcliff. Some 120 swimmers will dive in the surf at Old Mission and swim a mile south to finish opposite Mission Beach Lifeguard Headquarters.

Horses Work Out At Del Mar Track; Race Meeting Starts Next Thursday

DEL MAR — Early arrivals among the record total of 1300 horses which will be quartered at Del Mar for the 40-day race meeting that gets under way on Thursday, July 26, already are working out on the popular seaside track.

Opening of the stable area and racing strip Monday found a large number of thoroughbreds waiting to move in and go to work.

Racing Secretary Barry Whitehead was swamped by some 1600 stall applications, an all-time high at Del Mar, but the recent completion of two more barns enabled him to provide quarters for most of the oat-eating, purse-seeking "athletes.

Included among the racers seeking shares of the $1,000,000-plus prize money, of which $230,000 is to be distributed in 13 stake events, will be sensational Bobby Brocato, the nations leading earner of the turf among handicap horses in training this year.

Mr. and Mrs. Travis M. Kerr's great 5-yearold will be vanned from Hollywood Park immediately after the closing there, July 25. Most of the other horses now campaigning on the Inglewood oval also will move on to Del Mar, with others coming from such racing centers as Mexico City and Longacres.

Meanwhile, nominations close this Friday for the Inaugural Handicap, feature of the first-day program, July 26, and likewise for the Oceanside Handicap, first stakes race of the meeting, dated for July 28.

The Inaugural, a six-furlonger for 3-year-olds and up, is expected to draw such swifties as One Ton Tony, Scent, Guerrero, Grey Tower, Karim, Spring Count, Myrtlemoud, Duece Admiral and Rolyat.

The Oceanside, with $15,000 added for 3-year-olds at six furlongs, probably will bring into competition the likes of Johnie Mike, Anchor Watch, Ferke, Bold Bazooka, Mobile, Spring Boy, and Captain Bam.

Dorothy Goldstein, assistant grand lecturer, and Ann Saralegui, district deputy grand matron, will make their official visit to Pacific Beach Court 104, Order of Amaranth, Friday, July 20 at 8 p.m. at the Masonic Temple on Sunset Cliffs Blvd.

Presiding will be Leona Emmitt, royal matron, and Lyle Emmitt, royal patron. A social time will follow in the banquet room with Dorothy Davis and Grace Pittman as co-chairmen.

Social club now meets the second Tuesday of each month.

GRAND OPENING—This shows part of the crowd in the produce section and at check stands (upper right) in the remodeled Rancho Market Basket on Newport Ave. Saturday. Henry (Hank) Voss, manager, reported the supermarket operated at capacity during the three-day grand opening but there were no bottlenecks interfering with the smooth flow of customer traffic.

13 Local Boys Head For Alaska

Thirteen boys from the Point Loma area are among the 35 from San Diego who this week are enroute to Alaska aboard a 110-foot converted submarine chaser which left Seattle Tuesday for the trip northward via coastal waters, through inland Canadian waterways.

Those going from this area are Daryl Barnes, Robert Beaudry, Neil Clemenshaw, Lee Davis, Mike Dickman, Ferdinand Fletcher Jr., Robert Fletcher, Morley Golden II, Richard Isham, Bruce Muller, Carroll Murphy, William Rust Jr., and Robert Sullivan Jr.

Sam Beaudry Jr. is one of four adult leaders on the tour.

The 42 persons in the party left San Diego last Friday by trucks for Seattle, camping out en route.

Traveling aboard the subchaser "Warbler," the group reached ocean level via the Union Lake locks at Seattle.

From then on until they return home August 5, they will stop at Prince Rupert Island in Canada, Kitimat, Wrangel, Juneau, Petersburg, Ketchikan and frontier towns abounding in gold rush lore.

In Juneau, they will be welcomed by Gov. Frank Heintzelman, who greeted a similar group in 1954. That trip and the current one were sponsored by the Northwest YMCA, with Howard Christman, executive secretary, as tour director.

WASHINGTON Letter

By BOB WILSON
Member of Congress

The last week before I left for San Diego was a busy one, for there was much work to be done on San Diego projects before I could take off for home.

First off, I wrote to County and State officials, urging them to explore the possibility of acquiring State tidelands oil royalty revenues to finance an early start on the Imperial Beach erosion control project.

During a conference with Richard O. Eaton, member of Beach Erosion Board, he suggested the State and County might as well get started on the project, since they must spend the Federal Government's one-third share of the estimated $246,000 cost before they can be reimbursed by Uncle Sam.

The Imperial Beach project, which involves the building of five groins a thousand feet apart to block erosion, was part of a new civilian public works program approved by the House Public Works Committee recently and certain to be sent to the White House before adjournment.

The Imperial Beach erosion situation is a most serious one. The more quickly we can get started the better. I am hoping that Sen. Fred Kraft, Assemblyman Jack Schrade and Chairman Dave Bird of the County Supervisors are successful in any move to tap the tidelands oil royalty fund. The law says that beach erosion control is one of the purpose for which it shall be used.

* * *

The fisheries aid bill bogged down temporarily in the House due to the press of other measures, but was to come up July 16 under suspension of the rules which allows quick passage of bills with a minimum of debate.

We anticipate no opposition to the measure, now that conservation and sport fishing groups have agreed this legislation will aid the commercial fishing industry without watering down the authority of the U. S. Fish and Wildlife Service to administer conservation of recreational fisheries resources.

* * *

I talked with Sen. Thomas H. Kuchel (R-Calif) about two matters of great importance to San Diego. First, I urged him to call on the Senate Judiciary Committee to approve a bill creating an independent judicial district for San Diego and Imperial counties. A Subcommittee approved the measure as part of its omnibus judgeship bill. Sen. Kuchel introduced the measure in the Senate and I sponsored it in the House.

While San Diego already has a second full-time Federal judge and a U. S. grand jury as a result of our legislation, its approval nevertheless would give San Diego other judicial district functions making it unnecesary for local citizens and those in Imperial county to travel all the way to Los Angeles to transact business in the Federal courts.

At my urging Sen. Kuchel wrote to Sen. Carl Hayden, (D-Ariz), Chairman of the Senate Appropriations Comittee, asking that the group include an additional $150,000 in the fiscal 1957 supplemental spending bill for the Interior Department's sea water conversion research program.

Officials of the program have warned they need the extra funds if the Government is to move forward swiftly toward eventual low-cost fresh water converted from the sea.

L. J. Playhouse Offers 'Pal Joey'

An unusually exciting atmosphere of anticipation prevails at La Jolla Playhouse this week as the final licks are put into the upcoming production of "Pal Joey," the first musical production ever presented at the Playhouse in its ten-year history, set to open next Tuesday night.

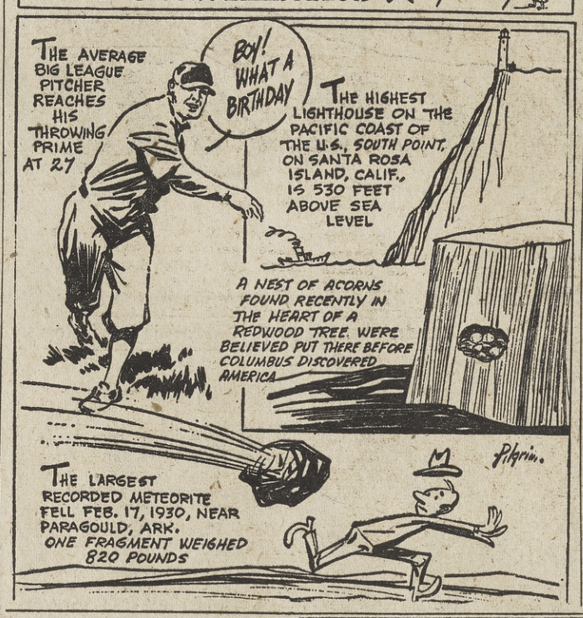

Possibly the most exited of all the 50-odd people concerned with the musical play are two of its stars, Gene Nelson and Benay Venuta, for they have been planning and working on it with Producer John Swope since last winter. Nelson, who may be seen currently in the motion picture, "Oklahoma," is staging the choreography and musical numbers in addition to displaying his well known talents as a dancer and singer.

Others in the cast include Sue Carson, night singer who has just finished a triumphant engagement in Las Vegas, and the popular character actor George O'Hanlon, "behind the eight ball man," who are co-starred with Nelson and Miss Venuta. Peg La Centra, Betsy Duncan, Mario Siletti and Arthur Lovejoy head up a supporting cast of 22 dancers and actors.

The La Jolla Playhouse production of "Pal Joey" follows on the heels of the current smash-hit, "King of Hearts," the hilarious comedy starring Jackie Cooper, Patricia Breslin and Dan Tobn, which has its final performance Saturday night.

HOW TO CAPTURE A MERMAID

Pretty Carol Durant is snapped by a friend as she adjusts her diving mask for another plunge. Carol shows that the latest in frogman attire makes a good prop for an amusing souvenir snapshot. At seaside or lakeside the use of props enhances the average snapshot of wife or girl friend—as long as the model remains relaxed and natural-looking.

Another hint for taking the glamour pictures you'll want to bring back from the beach this summer is to shoot in the morning or afternoon. Then the sunlight is gentler than the midday sun, which can cause deep shadows around the girl's eyes. Sand reflects sun's rays, so beach scenes should be treated as bright, not average, photographic subjects.

WASHINGTON AND
"SMALL BUSINESS"
By C. WILSON HARDER

Results of forthcoming investigation of airlines by Civil Aeronautics Board will be interesting.

* * *

Actually, CAB was prodded into action by Sen. John Sparkman, chairman of the Senate Small Business Committee, and Rep. Emmanuel Celler, chairman of House Judiciary Committee.

C. W. Harder

* * *

The action that CAB takes, or does not take, could lead into a full scale Congressional review of the many regulatory bureaus in several fields that Congress has set up over the years.

* * *

In 1938 when commercial aviation was young, Congress passed the law setting up CAB with authority to regulate routes, schedules and rates.

* * *

But since 1938, although air travel has grown by many hundreds per cent, CAB has consistently refused to allow any new airlines to fly scheduled trunk lines. In other words, since 1938, competition has been frozen out of the industry by bureau edict.

* * *

As Sen. Sparkman says "There is room under the law to establish additional trunk lines. There is definitely need for more competition." And Rep. Celler says, "I don't believe the CAB has been abiding by the anti-trust laws. They have been more or less rubber stamping everything the Air Transport Association has proposed."

* * *

The Air Transport Association is composed of the 13 major domestic airlines.

* * *

Now here is a curious aspect. Although CAB believes airline profits should not exceed 8%, for the past five years airline profits have ranged from 10.4% to 14.6%, after taxes. Last year profits averaged 11.8%.

* * *

Several times in past CAB has made gestures toward lower fares, but nothing happened.

* * *

Trans-American Airlines, formerly North American, has long sought permission to fly regularly scheduled runs at substantially lower fares.

* * *

Yet, in local areas, there is every evidence competition has brought fares down. In California, for example, CAB was not able to stop scheduled air service by independent companies operating within state boundaries. Thus on two hour, 400 mile route between San Francisco and Los Angeles, majors fly for only $13.50. Yet from San Francisco to Seattle, a run less than twice as long, but which can only be flown by two major airlines, the fare is $32. These are coach fares.

* * *

Rate schedules now in effect should give CAB ample evidence that to all appearances, airline fares are based to some extent on just how much competition there is on a given route.

* * *

In addition, last year, to very substantial air mail payments, CAB permitted over $3 million to be paid airlines in direct subsidies, despite the record profits.

* * *

It will be interesting to see what CAB comes up with. There are many indications that Congress will jump into the situation with both feet. In fact, a widespread brannigan could develop whereby Congress would investigate to determine if not only CAB, but the Interstate Commerce Commission, the Federal Communications Commission and other regulatory bureaus are not usurping their authority to foster monopolies. A preliminary study of the trucking industry by the Senate Small Business Committee has already given indications this may exist.

MULLING WITH MULLER
By Edna M. Muller

Make the light remark that "a woman's work is never done"—friend husband will be fast to reply "a woman's work should be done—and quickly—with all the modern appliances bought during the past few years." I hate, of course, to be reminded of "grandma's day" but I suppose we *have* taken today's modern living pretty much for granted . . . and heaven knows life is easier than in grandma's time!

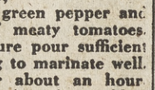

In a large measure "big business" has made this possible and deserves a great deal of credit. For example, there's a fabulous self-sufficient "small city" covering 330 acres, near Detroit, within whose fantastic buildings with its equally fantastic equipment, talented scientists, engineers, technicians and stylists, create products and processes which touch every home—kitchens, automobiles, military vehicles, fabrics—to name only a few. I'm referring to the amazing GM Technical Center—dedicated to "a better tomorrow through research today."

I might add its role in medicine seems incredible too, and has been demonstrated with the first successful mechanical heart, a new artificial lung a device now used to purify vaccines and blood plasmas, and the electric stethograph, which records the human heart's inaudible sounds.

It is incomprehensible to imagine what new products "big business" will create in the next 100 years but I bet the people of 2056 will still be taking their "modern" living pretty much for granted!

Salads come into their own during the next few months — not the least of these will be shrimp. Want something special and a little different? Combine shrimp, lettuce, celery, green pepper and small slices of meaty tomatoes. Over this mixture pour sufficient French dressing to marinate well. Refrigerate for about an hour. Just before serving time add a very firm diced sweet apple to the salad. Drain off French dressing and add enough mayonnaise to bind ingredients. Serve on crisp lettuce leaves and place strips of red and green pepper over the top. Will you make a hit!

Lecture Series At State College

San Diego State's series of lectures in psychology, physical science and biology will enter its fifth week next week. The lectures by outstanding research scientists are free.

"The Measurement of Attitudes" will be the Tuesday topic of Dr. Allen Edwards, professor of psychology at the University of Washington and author of texts on statistical methods for behavioral sciences.

"Solar Research During the International Geophysical Year" will be discussed on Wednesday by Dr. Seth Nicholson, who is working with Mount Wilson and Palomar Observatories, Carnegie Institute of Washington and California Institute of Technology.

Dr. Elizabeth Boden, Division of Marine Vertebrates, Scripps Institute of Oceanography, will speak of "The Light Relationships of the Deep Scattering Layer." Sound is scattered and bounced by a deep layer of what are probably fish moving up and down.

All lectures are held at 7:30 p.m., in the science lecture hall.

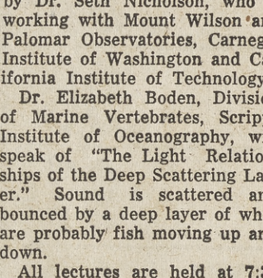

Slow Drivers Also Dangerous

SACRAMENTO — "Speed control is vital to car control."

This statement was made today by California Highway Patrol Commissioner B. R. Caldwell as plans were made to cope with the record flow of traffic expected this summer on California streets and highways.

"Slow drivers as well as fast drivers are responsible for a large number of traffic accidents each year," Caldwell said. "We can eliminate these accidents by always driving within the lawful speed for the area traversed. This means keeping the car under control at all times through safe and sane speeds and alertness to all other traffic rules.

Our enforcement action will cover all violations but, specific emphasis will continue to be placed on violations of the speed laws including those against slow driving."

Mrs. Saum Named Regional Chairman For 1956 United Success Drive Here

Mrs. K. D. Saum, 1262 Moana Dr., has been named regional chairman of the geographic division in the Dana and Roosevelt school districts for the 1956 United Success Drive, Mrs. Norval Diamond, San Diego division chairman, announced today.

Mrs. Saum's responsibilities include the selection of area chairmen who will head the campaign in the Dana and Roosevelt school districts. They in turn will recruit additional volunteers. She will also assist in establishing quotas in her areas.

"Being selected to serve in this, THE community cause, is very gratifying because I feel it is the duty of every person to backup community projects, especially one like the United Success Drive that is conducted for so many services," Mrs. Saum said.

She pointed out that special emphasis is being placed on recruiting top-notch volunteers to call on homes in this area. "Every one of us, both the campaigner and those who are asked to give, must make every effort to meet the $2,300,000 goal that was set by the public at the recent goal-setting meeting in Balboa Park."

Mrs. Saum, a graduate of San Diego High School and State College, was born in El Cajon. She is married to Kenneth Saum, a supervisor in the industrial engineering department at Convair.

Last year she served as zone chairman in the Silvergate area. She has been a campaign worker for the past 7 years.

The geographic division of the drive will campaign all places of residence and all firms or businesses with less than five employees within the city of San Diego.

Oil Conservation Act Supported

LOS ANGELES — Many independent oil producers are glad about Proposition 4 and mad about "false representations" that they oppose the Oil Conservation Act, a long-time California independent declared otday.

In a letter sent to all members of the State Legislature, independent producers and newspaper publishers of California, Joseph H. Gilliland, president of Gilliland Oil Co., repudiated the "wild, irresponsible and misleading attacks on the Conservation Act which have been falsely represented as being the official and accepted attitude of the independents."

He and many other responsible independents are "enthusiastically in favor" of the measure, Gilliland said, and they believe "it will produce healthy benefits for everyone in the oil business, particularly the independent producer'.'

KITCHEN MILK SHAKES

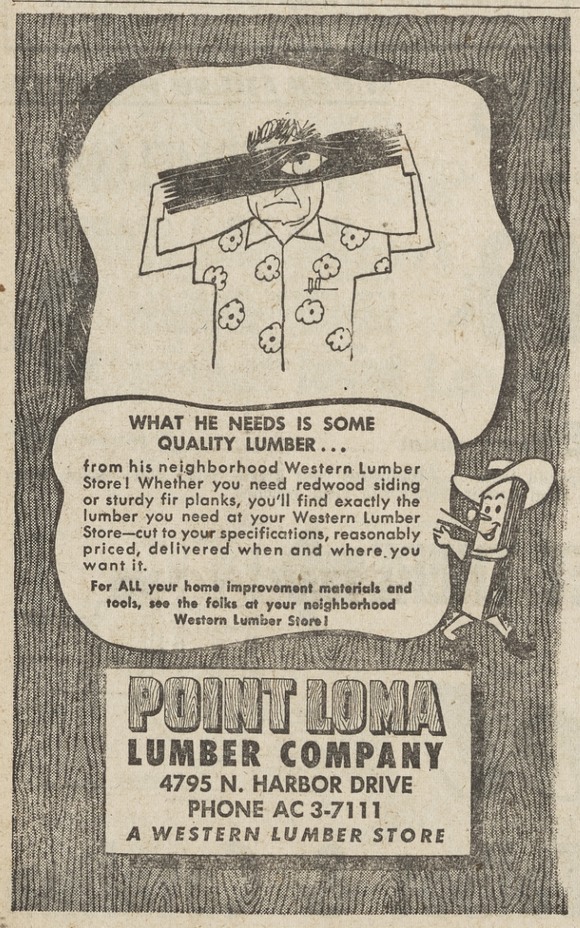

Making milk shakes at home is so easy today a youngster can prepare them. And they are every bit as rich, thick, and smooth as those at a soda fountain, although neither a mixer nor involved mixing procedure is required. A new kind of nourishing milk shake mix, now available in grocery stores, is the secret. Here's all you do: Pour a cup of cold homogenized milk into a shaker, add two ice cubes, and contents of one small package of the mix, called Make-A-Shake. Shake container vigorously for 30 seconds, and pour into two big glasses. Sipping straws are optional.

Tips on Touring

By Carol Lane
Women's Travel Authority

Did you ever stop to think that the family car—that trusty means of transportation—can also help in building good family relations? A friend of mine recently told me of his experience in this respect.

A busy man, he realized one day that his ten year old son no longer came to him for counsel or to seek his companionship. He set out to find a common interest, and discovered that his boy, like many youngsters, loved automobiles and could identify any make car. One Sunday, he suggested a drive with his son.

On the road, he explained to the boy the meaning of such road markings as double white, single and dotted lines. At one point, he asked his advice on whether or not to pass the car ahead. This led to a discussion of passing on hills and curves. Soon the boy's interest carried the conversation to car mechanics, and then on to other subjects. The boy discovered his father was easy to talk to and that he understood the problems of growing up. Their Sunday drive together became a ritual and served to cement a firm relationship between father and son.

The same can hold true for mother and daughter. By taking Susie with her on afternoon drives when she can demonstrate visually the importance of safe driving, Mom will instill in her daughter the need for safety on the highway. Then, too, she can stress the factor of cleanliness by keeping the car neat.

HEALTH FOR ALL

This summer, when the lucky ones among us will be able to go fishing, "the one that got away" will probably be the most important fish of the season. We take pride in the ones we catch, but we never stop worrying about the fish that escaped us. How big was he anyway?

"The one that got away" can be just as baffling in public health matters as in fishing, particularly when it comes to finding a contagious disease like tuberculosis.

To control a disease like tuberculosis, that is spread from person to person, it is necessary to find people who already have the disease. They must be placed under treatment. This is why the TB associations and health department ask us to have a chest X-ray at least once a year.

However, finding a case of TB is only half the battle. What good does it do to find a man with TB if you aren't able to get him to accept treatment until his disease is under control and he no longer can infect his neighbors?

These days people who have no fixed home, no family, and who don't "stay put" show much higher TB rates than the rest of agencies are making special efforts to find the case of tuberculosis among these groups, but they are faced with some special problems.

For example, X-raying of prisoners is done in some communities, but a prisoner may have been released from prison and left the community before a follow-up of the X-ray findings is possible. Similarly, persons without fixed residence who participate in X-ray surveys may disappear before the state of their health can be determined.

The American people can take great pride in each case of tuberculosis found and treated, but it's the one that gets away that keeps us from feeling complacent about our progress against the disease. He can hurt more than our pride—he can destroy his own health and spread TB to others in the community. That is why health agencies are hard at work trying to figure out how to get better cooperation from the homeless in X-ray surveys.

This column is sponsored, in the interest of better health by the San Diego County Tuberculosis and Health Association and the Peninsula News.

Navy Wives Club Sets Picnic Tues.

SAVE TIME AND MONEY SHOPPING IN THE PENINSULA AREA

More than 13,000 Families Read the Peninsula News Every Week

Copyright 1954 W. J. Rankin

LAST WEEK'S WINNER:
FRANCIS S. JONES
4809½ Narragansett

Winning Slogan:
Say "Hi" to your friend who runs the store!
Friendly, fair business . . . who would want more?

USE THIS RELIABLE DIRECTORY AND PATRONIZE THE MERCHANTS AND SERVICES FOUND LISTED BELOW

The Peninsula News will award each week for the next 26 weeks a credit certificate worth $12.00 to each eligible winning contestant—redeemable at any of the sponsoring advertisers who's ad is found listed on this page.

"CHECK THE ADVANTAGES"

This convenient Directory is composed of friendly local firms who realize that in order to maintain the patronage of resident shoppers, high quality, low cost and better service, must always be at your disposal. Hence, servce, convenience, home delivery, local telephone, are just some of the many reasons why IT PAYS TO SHOP LOCALLY.

"ENJOY THE FRUITS OF LOCAL HARVEST

You can have fun and become better acquainted with local advertisers and their ads by participating in our "BOOSTER SLOGAN" Contest. In each column can be found a "Hidden" Word—combine them and you have our slogan for this week—write a brief paraphrase along the same theme as the slogan—it does not necessarily have to rhyme but must always lend to the advantages of local shopping.

EXAMPLE—"Many More Reasons Why Local Trading is Best,
Get Shopping Done with Time to Rest."
